BOWA Marang Environmental Management and Consulting (pty) ltd

PEOPLE • ENVIRONMENT • GROWTH

Company Background

BOWA Marang is a professional environmental management practice, which was established to fulfil the growing demand by industry, government and corporate business for professional expertise in Environment, Safety and Health Management, excellent environmental outcomes are central to our daily work. BOWA Marang is a 100% black owned company that provides a wide range of specialist environmental services to our clients.

BOWA Marang is adept at developing strategies to provide sustainable, innovative and cost-effective environmental solutions. We aim to exceed client expectation, provide value for money, promote excellent service delivery and quality. BOWA Marang is driven by a strong work ethic and offers a fresh perspective through a comprehensive, integrated approach to environmental management.

Vision

By providing the highest quality of service to our clients and maintain high levels of professional ethics and admirable core values, our vision is to be top of the list of preferred strategic partners in the field of environment management and consulting. To give our clients solutions that add value to their operations and giving them a competitive edge.

Mission

Our mission is to emphasize continuous environmental improvement, commit to communication and interaction with the public and emphasize compliance with relevant environmental laws and regulations. We assist in protecting and conserving the surrounding environment for future generations by working close with our clients. We intend to provide the best possible service to our clients while encouraging environmental solutions in all aspects and maintaining a sound relationship based on mutual respect.

Our Approach

We strive for excellence through the application of our knowledge and experience in environmental management. We aim to deliver high returns on our clients' investments. We aim to minimise the turnaround period for obtaining environmental authorisation.

Our approach is based on the following principles:

- Clear understanding of the task and appreciation of client requirements and schedules
- Intimate knowledge of local conditions and understanding of stakeholder concerns
- Extensive understanding of local regulatory processes and procedures
- Practical and innovative solutions
- On time delivery of quality products and services

Our company is managed and structured to achieve trustworthy and effective results.

Quality Policy

- To undertake project work in accordance with defined scope of work, agreed between the Company and its Clients;
- To ensure that technical work is performed in accordance with relevant published standards, codes of practice, specifications, recognized professional guidance, statutory documents and other considerations;
- To complete technical work within agreed time and financial budgets;
- To carry out activities in accordance with established Quality Management Systems; and
- To review and update technical skills and management practices to continually improve service to Clients.

What do we specialize in

Our services involve identifying environmental impacts that a particular project might have and advice the client on mitigation measures. We also recognize the social impacts and participate in community meetings. Development and environmental sustainability is of great need in the growing South Africa. The above services are included when compiling the environmental Basic Assessment, scoping/Environmental Impact Assessments (EIAs) and Public Participation Processes. These are undertaken in terms of:

- Government Notices 544, 545 and 546 (Listing Notices 1, 2 & 3) of the EIA Regulations, August 2010, under the National Environmental Management Act (Act No. 107 of 1998) ("NEMA"), as amended;
- Government Notice No. 718 (Category A & B) of the Waste Management Activities, July 2009, under the National Environmental Management: Waste Act (Act No. 59 of 2008) ("NEM: WA"); and / or
- Government Notice No. 248 of the Activities which result in Atmospheric Emissions, March 2010, under the National Environmental Management: Air Quality Act (Act No. 39 of 2004) ("NEM: AQA").

We compile Environmental Management Programmes (EMPr) including construction and Operational aspects for projects that do not fall under the listed activities requirement of Section 24 of NEMA 108 of 1998.

We work on the Environmental Management of Construction Sites which includes environmental control, monitoring and auditing; which entails monitoring of compliance and environmental auditing as per the approved environmental authorisation and environmental management programme of that project.

Our services also include

Water services

- Water Use License Applications(WULA)
- Integrated waste water management plans (IWWMPs)
- Groundwater Assessments
- Developing catchment strategies

Waste Management Services

- Integrated Waste Management Plan (IWMPs)
- Waste Management Licenses
